Advanced Course in Infection Control

DESIGN, CONSTRUCTION AND RENOVATION

Register by **30 June 2015** to enjoy early bird discount!

Registration Closing Date: **7 August 2015**

COURSE DESCRIPTION

This 1-day Advanced Course in Infection Control, with the theme "Design, Construction and Renovation", aims to equip participants with the knowledge on Infection Control issues and the working skills in risk assessment and monitoring related to construction and renovation.

As this course requires prior basic understanding of Infection Control, Infection Control Practitioners with at least 1 year working experience will benefit more from the course.

This course will be taught by Infection Control experts and experienced practitioners chosen for their topical expertise and teaching experience. Learning strategies consist of lectures and case studies. There will also be networking opportunities and knowledge sharing.

COURSE OBJECTIVES

At the end of the course, participants should be able to:

- Describe healthcare associated infections (HAI) related to construction and renovation
- List pathogens causing HAIs related to construction & renovation
- Identify possible route of transmission
- Highlight key components in standard Healthcare facilities
- List specifications for key areas such as OT, CSSD, Endoscopy, Isolation Room
- Identify infection control measures to be taken during work
- Identify the role of air monitoring for fungi
- Make use of ICRA matrix in assessment of risks
